ALLWIN JOSE MANI.J

Web Developer | WordPress | Drupal

As an experienced WordPress and Drupal developer with advanced skills in PHP, JavaScript, jQuery, HTML, and CSS, I specialize in building dynamic, scalable web solutions. I have worked on more than 100 websites, leveraging my strong coding background to craft responsive, high-performance platforms that meet business objectives. With a passion for both technical functionality and user-centered design, I am committed to creating websites and applications that are both visually appealing and robust. I am always looking for opportunities to innovate, grow, and contribute to the success of an organization through my collaborative approach and dedication to excellence.

Professional Summary

- Experienced Full Stack Web Developer with a strong focus on **WordPress and Drupal CMS**, proficient in front-end and back-end development.
- Skilled in converting complex design mockups into fully functioning websites and responsive landing pages within WordPress and Drupal ecosystems.
- Expert in creating custom WordPress and Drupal themes and modules, enhancing site functionality and user experience.
- Experienced in **Flatsome UI/UX Builder Theme**, specializing in crafting visually appealing and user-friendly interfaces for WordPress sites.
- Proficient in **Elementor and WP Bakery**, optimizing development of dynamic, responsive WordPress websites.
- Skilled in **website migration** from different platforms to WordPress or Drupal, ensuring seamless transitions and preserving site integrity.
- Adept in utilizing modern frameworks and technologies such as Laravel, Bootstrap, and SASS for agile web development.
- Proficient in **SEO** strategies, including on-page and off-page optimization, to increase web visibility and traffic for WordPress and Drupal websites.
- Strong analytical skills demonstrated through SEO report generation and analysis using tools like SEMRUSH and Google Analytics.
- Experienced in deploying WordPress and Drupal websites on platforms like GitHub, ensuring version control and collaborative coding.
- Committed to continuous learning and applying the latest web development trends within WordPress and Drupal CMS.
- Efficient in database management and development, using technologies like MySQL, PHP, AJAX for robust backend services.
- Effective communicator and team player, able to translate client requirements into technical specifications and lead project teams for WordPress and Drupal projects.
