PROFESSIONAL SUMMARY

Results-driven Technical Lead and Senior Web Developer with extensive years of experience specializing in WordPress, Drupal, and PHP-based web development. Proven track record in leading engineering teams, managing full-stack application lifecycles, executing complex CMS migrations, and optimizing search engine visibility. Adept at transforming architectural goals into high-performance, robust, accessible enterprise solutions.

TECHNICAL SKILLS

Core Expertise: WordPress, Drupal, PHP, MySQL, Full Stack Web Development
Frontend & UI: React, HTML5, CSS3, JavaScript, jQuery, Bootstrap, Responsive Design, Jekyll, Hugo
Backend & Tools: Node.js, PHP Backend Development, Database Migration, Git, Linux Server Management
Optimization: SEO Optimization, AMP Integration, WAVE, BrowserStack, Cross-Browser Testing

WORK EXPERIENCE

Technical Lead Apr 2024 – Present

Access Healthcare Services (Chennai)

- Led full-cycle corporate website engineering, streamlined marketing automation pipelines, and enforced continuous compliance benchmarks.
- Directed the development and maintenance of scalable WordPress and Drupal enterprise web platforms, consistently improving page response cycles.
- Oversaw the architectural migration of over 20 legacy WordPress properties onto unified Drupal core frameworks, enhancing stability and manageability.
- Engineered tailored production themes and custom core plugins built over modular frameworks including Flatsome, Astra, and OceanWP.
- Instituted highly reusable component libraries and clean Bootstrap landing pages to unify cross-brand layout identities.
- Integrated bespoke Salesforce Pardot workflows, data form handlers, and tracking mechanisms to augment marketing funnel conversions.
- Elevated standard compliance layout accessibility natively validated across automated WAVE evaluations and cross-device BrowserStack diagnostics.

Lead Developer Apr 2022 – Apr 2024

Access Healthcare Services (Chennai)

- Supervised full-stack feature architecture, continuous performance assessment, and scaling models across healthcare web portals.
- Engineered high-availability WordPress and Drupal solutions optimized for end-user experiences and digital security regulations.

Senior Developer Apr 2020 – Apr 2022

Access Healthcare Services (Chennai)

- Managed end-to-end implementation sprints and optimized server-side query structures for enterprise digital platforms.
- Applied pixel-perfect responsive configurations and rigorous cross-platform testing for mission-critical web applications.

Senior Web Developer Jul 2019 – Apr 2020

Audiology Plus

(Maxworth backoffice of Audiology plus)

- Transformed UI design wireframes into modular WordPress solutions preserving full device responsiveness.

- Programmed static, performant landing workflows using modern SSG tools such as Jekyll and Hugo.
- Deployed layout optimization using Accelerated Mobile Pages (AMP) architectures to troubleshoot viewport rendering bottlenecks.
- Architected rich user interface elements, functional hero sliders, banners, and dynamic user interactive views.
- Delivered database-driven software applications utilizing pure PHP, standard MySQL datasets, and native JavaScript/jQuery libraries.
- Executed core technical SEO overhauls across existing directory patterns to boost organic content indexing.

Freelance Web Developer

Apr 2018 – Jun 2019

Self-Employed (Remote / Independent Contractor)

- Architected, customized, and deployed tailor-made WordPress and e-commerce solutions for domestic and international SMB clients.
- Collaborated directly with product owners to formalize initial technical specifications, scopes of work, and SEO-focused deployment strategies.
- Developed clean backend utility PHP modules, performed multi-tier database migrations, and ensured cross-browser layout parity.
- Upskilled consistently in next-generation frontend toolkits and core CMS methodologies to maintain modern system delivery offerings.

Full Stack Web Developer

Aug 2014 – Jan 2018

Alleva Infotech (Chennai)

- Engineered web properties from inception leveraging native WordPress distributions, PHP frameworks, and structured MySQL architectures.
- Designed user journeys, intuitive wireframe flows, and highly responsive operational UI layouts.
- Constructed bespoke theme extensions and embedded semantic on-page metadata optimization frameworks.
- Enriched asynchronous interactive capabilities by integrating script-based structures via JavaScript and jQuery extensions.
- Administered essential backend queries, relational lookup matrices, and database indexing adjustments.

EDUCATION & ACADEMIC EXPERIENCE

M.E. (VLSI Design)

Kings College of Engineering, Trichy (Graduated: 2012)

Assistant Professor

SCMS (Cochin) | Jan 2013 – Aug 2014

B.E. (ECE)

St. Xavier's Catholic College of Engineering, Anna University (2003 – 2007)

Lecturer

SJCET (Thanjavur) | Apr 2008 – Jun 2010
